

Are you a manufacturer, SME or a Scale-up seeking to transform the European manufacturing landscape with new products and services?

Reach out with your idea and join us at EIT Manufacturing!

We make Innovation happen!

Who are we?

- We are the European Innovation community on Manufacturing
- We support innovation, innovation-driven education and business creation in Manufacturing
- Public-private partnership formed of leading European companies, research institutes and universities
- We receive long-term financial support by the European Institute of Innovation and Technology (EIT) and at the same time create our own sustainability model

What do we offer?

- Support to further develop your business by identifying the right collaboration partners across Europe regarding technology, market access and financing possibilities
- Access to financial co-investment for your innovative solution (up to 70 %) and innovation-driven education projects (up to 100%)
- Access to leading innovators in manufacturing across Europe
- Access to pool of entrepreneurs
- An interactive Guided Learning Platform which provides access to innovation-oriented content created in Europe

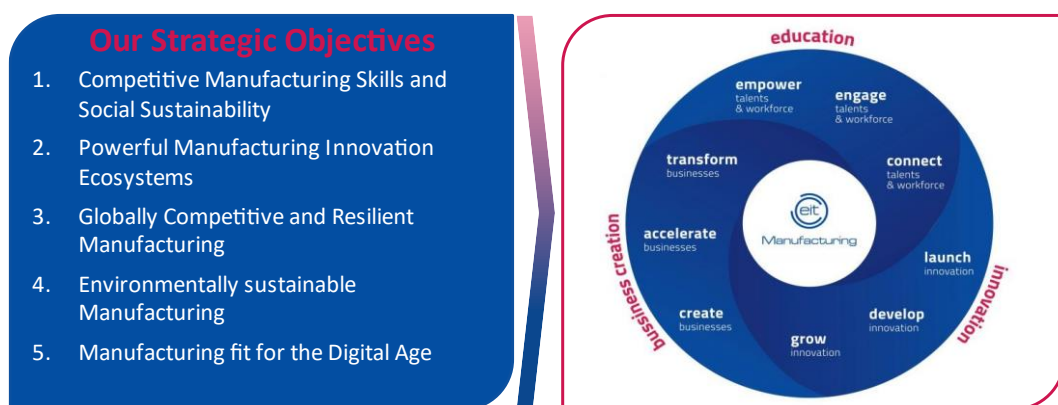

Our members

We are open to new members and ecosystem collaborations!

Call for Proposal 2022

With the needs, concerns and ideas of economy and society at its core, the mission of EIT Manufacturing is to empower its partners and stakeholders to fundamentally transform the manufacturing system and meet the global demands of present and future generations. In 2020, EIT Manufacturing has successfully concluded the first operational year. In 2021, the second EIT Manufacturing Call for Proposals will build upon the experiences and lessons learnt and drive the community one step further in the achievement of its long-term goals.

To ensure alignment of Proposals with EIT Manufacturing Strategic objectives, the following call thematic (Flagships) have been defined. The pattern of the Flagship consists of lever(s) for a Strategic Objective. Proposals should at least contribute to one of EIT Manufacturing's four flagships

- **Human-machine co-working for socially sustainable manufacturing**
- **Flexible production systems for competitive manufacturing**
- **Low environmental footprint systems & circular economy for Green manufacturing**
- **Digital & collaborative solutions for innovative manufacturing ecosystems**

The aim of the Call for proposal 2022 is to select projects which develop both the technical integration and the business maturity level of innovative solution. On the second aspect, it means increasing the market traction and robustness of the proposed solutions for scaling, to ensure or increase adoption within manufacturers as end users.

Exploiting these opportunities will require to combine aspects of innovation, education, and business creation, in an integrated fashion. Activities along these lines will be at the heart of EIT Manufacturing. Proposals for these activities will be solicited through a call process open to all Partners of EIT Manufacturing, i.e. Members and their Linked Third Parties, Activity Partners, but also open to non-Partner (external) organizations, including SMEs and Start-ups, that can bring added-value to them.

How to join EIT Manufacturing?

- We offer a membership model aiming at long-term collaboration. Members pay a yearly membership fee and have access to a wide range of services and events across our community.
- We have a regular open call at which non EIT Manufacturing members can participate as part of a member driven consortium.

Where to find us?

You can easily contact us via our Co-Location Centers (CLC) across Europe:

CLC Central in Darmstadt, Germany

- Christian Bölling, christian.boelling@eitmanufacturing.eu, +49 171 777 2698

CLC East in Vienna, Austria

- Johannes Hunschofsky, east@eitmanufacturing.eu

CLC North in Gothenburg, Sweden

- Björn Fagerström, info_north@eitmanufacturing.eu

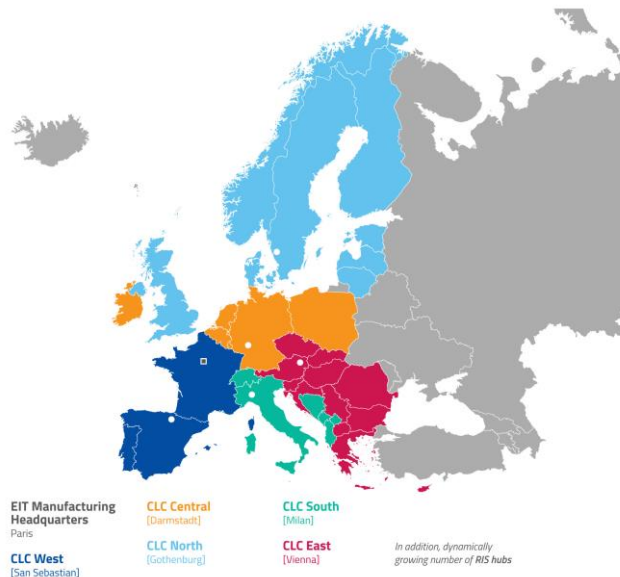

CLC South in Milano, Italy

- Gian Mario Maggio, clcsouth@eitmanufacturing.eu

CLC West in San Sebastian, Spain

- Antoni Pijoan, clcwest@eitmanufacturing.eu
